## Reflective Spaces

Some parts of this exhibition may trigger difficult memories and bring up strong emotions.

**Butler's Pantry**  
A reflective and relaxing space surrounded by fabric.

### Dining Room

A quiet space with photos taken by primary school children, and seating that looks out to the park.

**Conservatory**  
If the Dining Room is closed there is the conservatory that has seating and also looks out to the park.

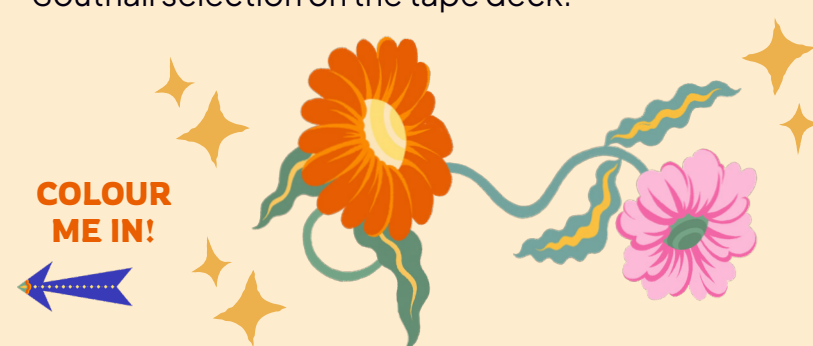

### The Park

There are lots of nice places to sit in our beautiful park.
